During the same period, the Bank funded a total of \$68 million of the approved loans, with \$36 million funded in the 4th quarter of 2010 and \$32 million funded in the 1st quarter of 2011, (typically a slower funding quarter), with a significant portion still in process. The \$32 million funded in the 1st quarter of 2011 was a \$20

million increase in fundings, or 178%, from the 1st quarter of 2010; a testament to our commitment to helping small businesses.

Richard M. Sanborn, President & Chief Executive Officer, commented, "We had another very good quarter. We reported a solid net profit which resulted in a 13.8% annualized return on shareholders' average equity, after adding \$300 thousand to our reserves; we continued to reduce our exposure to problem loans and other real estate owned, and our SBA loan pipeline remains strong. Our whole team is focused on our continued improvement, both in asset quality and financial performance, and we are on track with our goal to provide \$120 million in much needed credit to qualified small businesses in our market areas. Contrary to what's being reported in the press about the banking industry, we are lending to small businesses," Sanborn concluded.

Allan W. Arendsee, Chairman of the Board, stated, "Our goal has always been to provide a consistently superior return to our shareholders, while operating in a safe and sound manner, and I'm pleased we are delivering on that goal, having done so for the last three consecutive quarters. I'm confident our long-term focus is in line with shareholders expectations and our continued improvement is due to the execution of the plan and strategies committed to by our team," Arendsee concluded.
